

Guildford Grammar School

WESTERN AUSTRALIA

2020 Annual Report

Philosophy

Located on the leafy banks of the Swan River, Guildford Grammar School is a co-educational Anglican, independent day and boarding school where girls and boys from Kindergarten to Year 12 are equipped to live a life of purpose.

"Inspiring students to achieve personal excellence and be outstanding citizens who work to create a just, loving and peaceful society."

As one of Western Australia's oldest independent schools, Guildford Grammar School has a proud heritage of providing an outstanding education. The School was formed in 1896, when pastoralist and Parliamentarian Charles Harper saw the critical need for better education as a way to transform young lives.

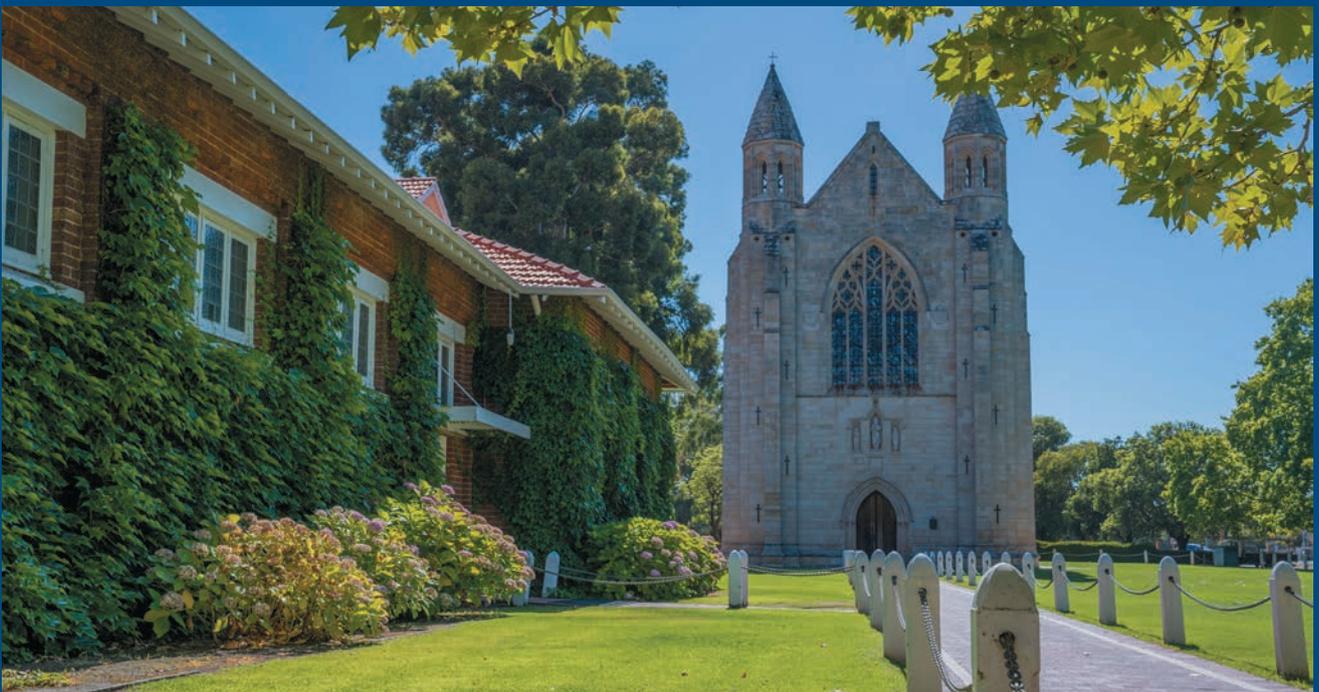

We remain committed to our founding vision and focused on providing an education that will equip our students for life in the modern world. We know that the education landscape is continuously changing to fully prepare students for tomorrow. Children of today face a very different future to that of their predecessors. Our education philosophy is future-focused and we aim to instil boys and girls with the necessary skills for tomorrow.

At Guildford Grammar School, students will learn to become

independent thinkers, problem solvers and innovators. They will develop a thirst for knowledge so that they will continue to learn throughout their life. In our rapidly changing world students need the skills to adapt and grow.

We are blessed with truly inspirational surroundings. Our spacious campus, located on almost 100 hectares of land on the banks of the Swan River, provides a magnificent backdrop for learning. In addition to the standard curriculum, our location and available land allows for a diverse range of sporting activities, with our main playing fields and rowing shed located on campus.

Guildford Grammar School provides extraordinary opportunities that prepare boys and girls for a bright future.

From the Principal

What an amazing year it has been! One of incredible opportunity and certainly some challenges along the way. I have been so impressed and buoyed by the resilience I have seen in everyone, in particular our students. This year was not the year we thought we were going to have. This is a year in which we have done things like we have never done before and, students, staff and families, throughout it all, have been simply incredible.

How can we prepare our young people so that they may make the appropriate judgements, for themselves and for their future pathways? How do we support their decision making, not only in their senior secondary years, but throughout their entire schooling lives, right now — today? The answer is to provide a broad experience that enables young people to test, trial, practice, make mistakes, learn from them, to develop a true love of learning for learning's sake. To develop an appetite to think about possibilities, to formulate questions for which they do not yet know the answers. To learn in a way that means they truly have to delve and deep dive, not only into information, but into developing an understanding of themselves and of others. That is, to learn things that aren't 'googleable.'

Approaches to curriculum and learning are shifting from a static, linear model to a more dynamic model, that recognises that each student has their own learning pathway. Student assessment is also shifting from more

standardised tests to different types of assessments that suit different purposes. Most importantly, the role of students is changing from being passive participants in the classroom to becoming more active participants in whole of school decision making through increased student agency and co-creating with teachers to shape their learning environments.

For us at Guildford Grammar School, many of these ideas are not new. Our approaches over the years have exhibited some of these traits. However, there is a constant need for us to review and audit our practices so as to sustain our relevance, now and into the future, and to be open to local and global influences and also adept at leveraging them so our students and community can act with a sense of purpose and agency, supporting all to flourish and thrive in society.

Former Secretary General of the United Nations, Kofi Annan stated: "Education is a human right with immense power to transform. On its foundation rest the cornerstones of freedom, democracy and sustainable human development." Our teachers work to achieve this noble aspiration each day. They give of themselves and invest their hope, care and expertise in growing great young people. To our educators - thank you.

My thanks to all parents and caregivers, and the Guildford Grammar School community for their unwavering and generous support of this wonderful school. It is a privilege to work with them all in raising our wonderful children and young women and men.

Anne Dunstan

Student success in 2020

For Year 12 students throughout the world, 2020 has been a year like no other. The majority of our senior students were fortunate to experience only a minor disruption to on-campus learning. However, the Class of 2020 overcame a number of challenges and adapted to a constantly changing landscape to successfully complete their final exams and look to 2021 with renewed focus.

Before exams commenced, a number of our Year 12 students received early offers from across all five Western Australian universities for admission to degrees ranging from Engineering, Biomedical Science and Chemistry to Law, Early Education and Architectural Science.

Our Year 12 cohort's academic results for 2020 show that the School continues to inspire students to Go Forward, no matter the circumstances, with outstanding achievements in both the ATAR and General pathways.

In 2020, our students accomplished impressive results across the board, with a number of significant achievements.

- A Median ATAR score of 82.65 for students applying for university entrance.
- 7.4% of these students gained an ATAR of 99 or above (up 4.4% from 2019) placing them in the top 1% nationally.
- 17% of students gained an ATAR of 95 or above (up 10% from 2019) placing them in the top 5% nationally.
- 28% of students gained an ATAR of 90 or above (up 4% from 2019) placing them in the top 10% nationally.
- 44% of students gained an ATAR of 85 or above (up 11% from 2019) placing them in the top 15% nationally.
- 56% of students gained an ATAR of 80 or above (up 9% from 2019) placing them in the top 20% nationally.
- The Class of 2020 achieved 13 Certificates of Distinction and 9 Certificates of Merit.

We congratulate William Tang for his remarkable achievements; he received an outstanding ATAR of 99.9, the School's Dux Award for ATAR, a General Exhibition Award and a Certificate of Distinction. We also congratulate Mason Headland who received the Dux for General pathway, and Jeremy Choong and Terence Win who were awarded Subject Certificates of Excellence in Mathematics Methods and Certificates of Distinction.

University entrance is not necessarily the desired destination for all students. A number of enterprising students set up employment, apprenticeships and traineeships in a range of industries in preparation for 2021.

The Class of 2020 has proven to be an exceptional and diverse group of young women and men with many talents, interests and abilities. This diversity is represented in their post-school destinations and career choices.

Our students are fortunate to have a broad range of pathways available to them. This year, students have been able to study General courses together with a Certificate III or IV in Business; undertake study at TAFE several times a week; complete external pre-apprenticeships; or, work towards their ATAR. We are pleased to report that 100% of students enrolled in Certificate IV Business successfully achieved the qualification.

The Class of 2020 have proven themselves to be adaptable, resilient and independent learners. While 2020 has demanded unprecedented challenge, our students can be proud of the way they have navigated this new landscape with renewed focus, positivity and purpose. As a result, they have been uniquely positioned to forge ahead toward their own personal versions of excellence.

At Guildford Grammar School, we recognise the need to provide varied, relevant and challenging pathways to prepare young people for what lies ahead. As we look back on 2020, we can be proud of the tremendous accomplishments our students have achieved and the role we have all played to prepare them for the next exciting stage of their lives.

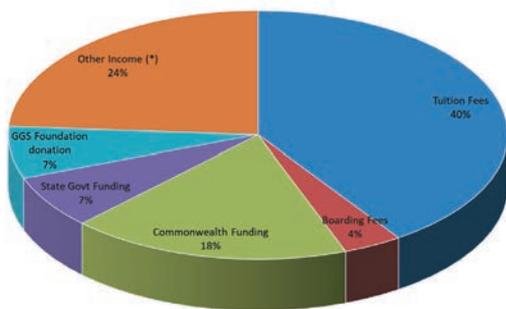

Attendance Rates

The School has a non-attendance management system for daily absentees. Following a student being recorded as absent from a class without an explanation, the Student Services Administrator will then contact the parent (or guardian) via telephone and email. Senior Administration would also be involved in the process if a student is away for a medium to long term period.

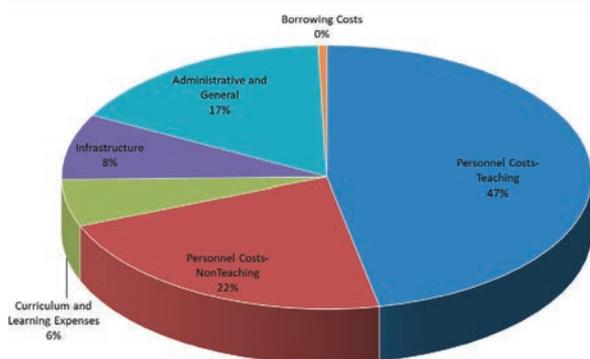

Attendance Rates 2020	
Year	% Present
Year 1	90.36
Year 2	95.67
Year 3	94.70
Year 4	93.84
Year 5	94.61
Year 6	93.77
Year 7	92.94
Year 8	94.85
Year 9	92.86
Year 10	91.16
Year 11	92.79
Year 12	80.10

Parent Feedback

"Guildford Grammar as a whole has been so welcoming. The liaison parents do such a great job. Guildford truly feels like one big family. Any questions we have had so far are always answered promptly. It really has exceeded all our expectations."

"Teachers have been great this year - communicated well, have a good understanding of my children's needs and go above and beyond to make their learning relevant and engaging."

"We are all exceptionally happy with the support and learning methods at GGS."

"My child's Head of House is accessible, supportive and reasonable. I feel my son is in good hands."

"All the staff and faculty at GGS are absolutely amazing. We can't thank them enough and appreciate all their exceptional efforts that go above and beyond the walls of the classroom."

"Congratulations on keeping it all "normal" during a crazy year! We can only imagine to endless, additional hours invested by staff at GGS to adapt to COVID-19 restrictions. Well done all."

"Thank you for a wonderful first year at GGS. We've been very impressed with all the staff, our daughter is very happy, is being challenged academically and well supported by her Teachers, Coaches, Head of House and Mentors."
